

# Winter and Summer Sun

Explore the northern Sun in the winter and summer!

Materials Needed:

Winter and Summer Sun printable on cardstock, scissors, glue, tape, blue or white paper, crayons or colored pencils.

For younger children, adults can assemble the craft. Children can help with each step, and then enjoy

# The Sun, Earth, and Seasons

Discuss the Sun with your child(ren). Have you noticed the Sun “stays up” later as spring arrives? Does the Sun stay lower in the sky during the winter? Why does summer feel warmer than winter? Look outside. Where is the Sun shining now?

**Caution: Never look directly at the Sun! It can seriously hurt your eyes.**

On Earth, we enjoy both daytime and nighttime, and celebrate the changing seasons throughout the year.

Earth spins on its
