Writing

The research paper is a type of writing that is used to present the results of a study or investigation. It is a formal document that is used to communicate the findings of a research project to a wider audience. The research paper is a type of writing that is used to present the results of a study or investigation. It is a formal document that is used to communicate the findings of a research project to a wider audience.

Business

papers. These papers consisted of descriptive narrative and the most painful of all, the research paper. All in all this class was work; there was never too much work or too little.

—Lisa Strianese

was a great class. Our instructor...

The Moon

The moon glows above,
In the darkened Heavens.
Stars, afraid of the bright light,
avoid the moon.
Lonely, it sits between two mountains,
Slowly sinking into the ground away from
the piercing stare of its neighbors.
Its heart beats.

Engineering

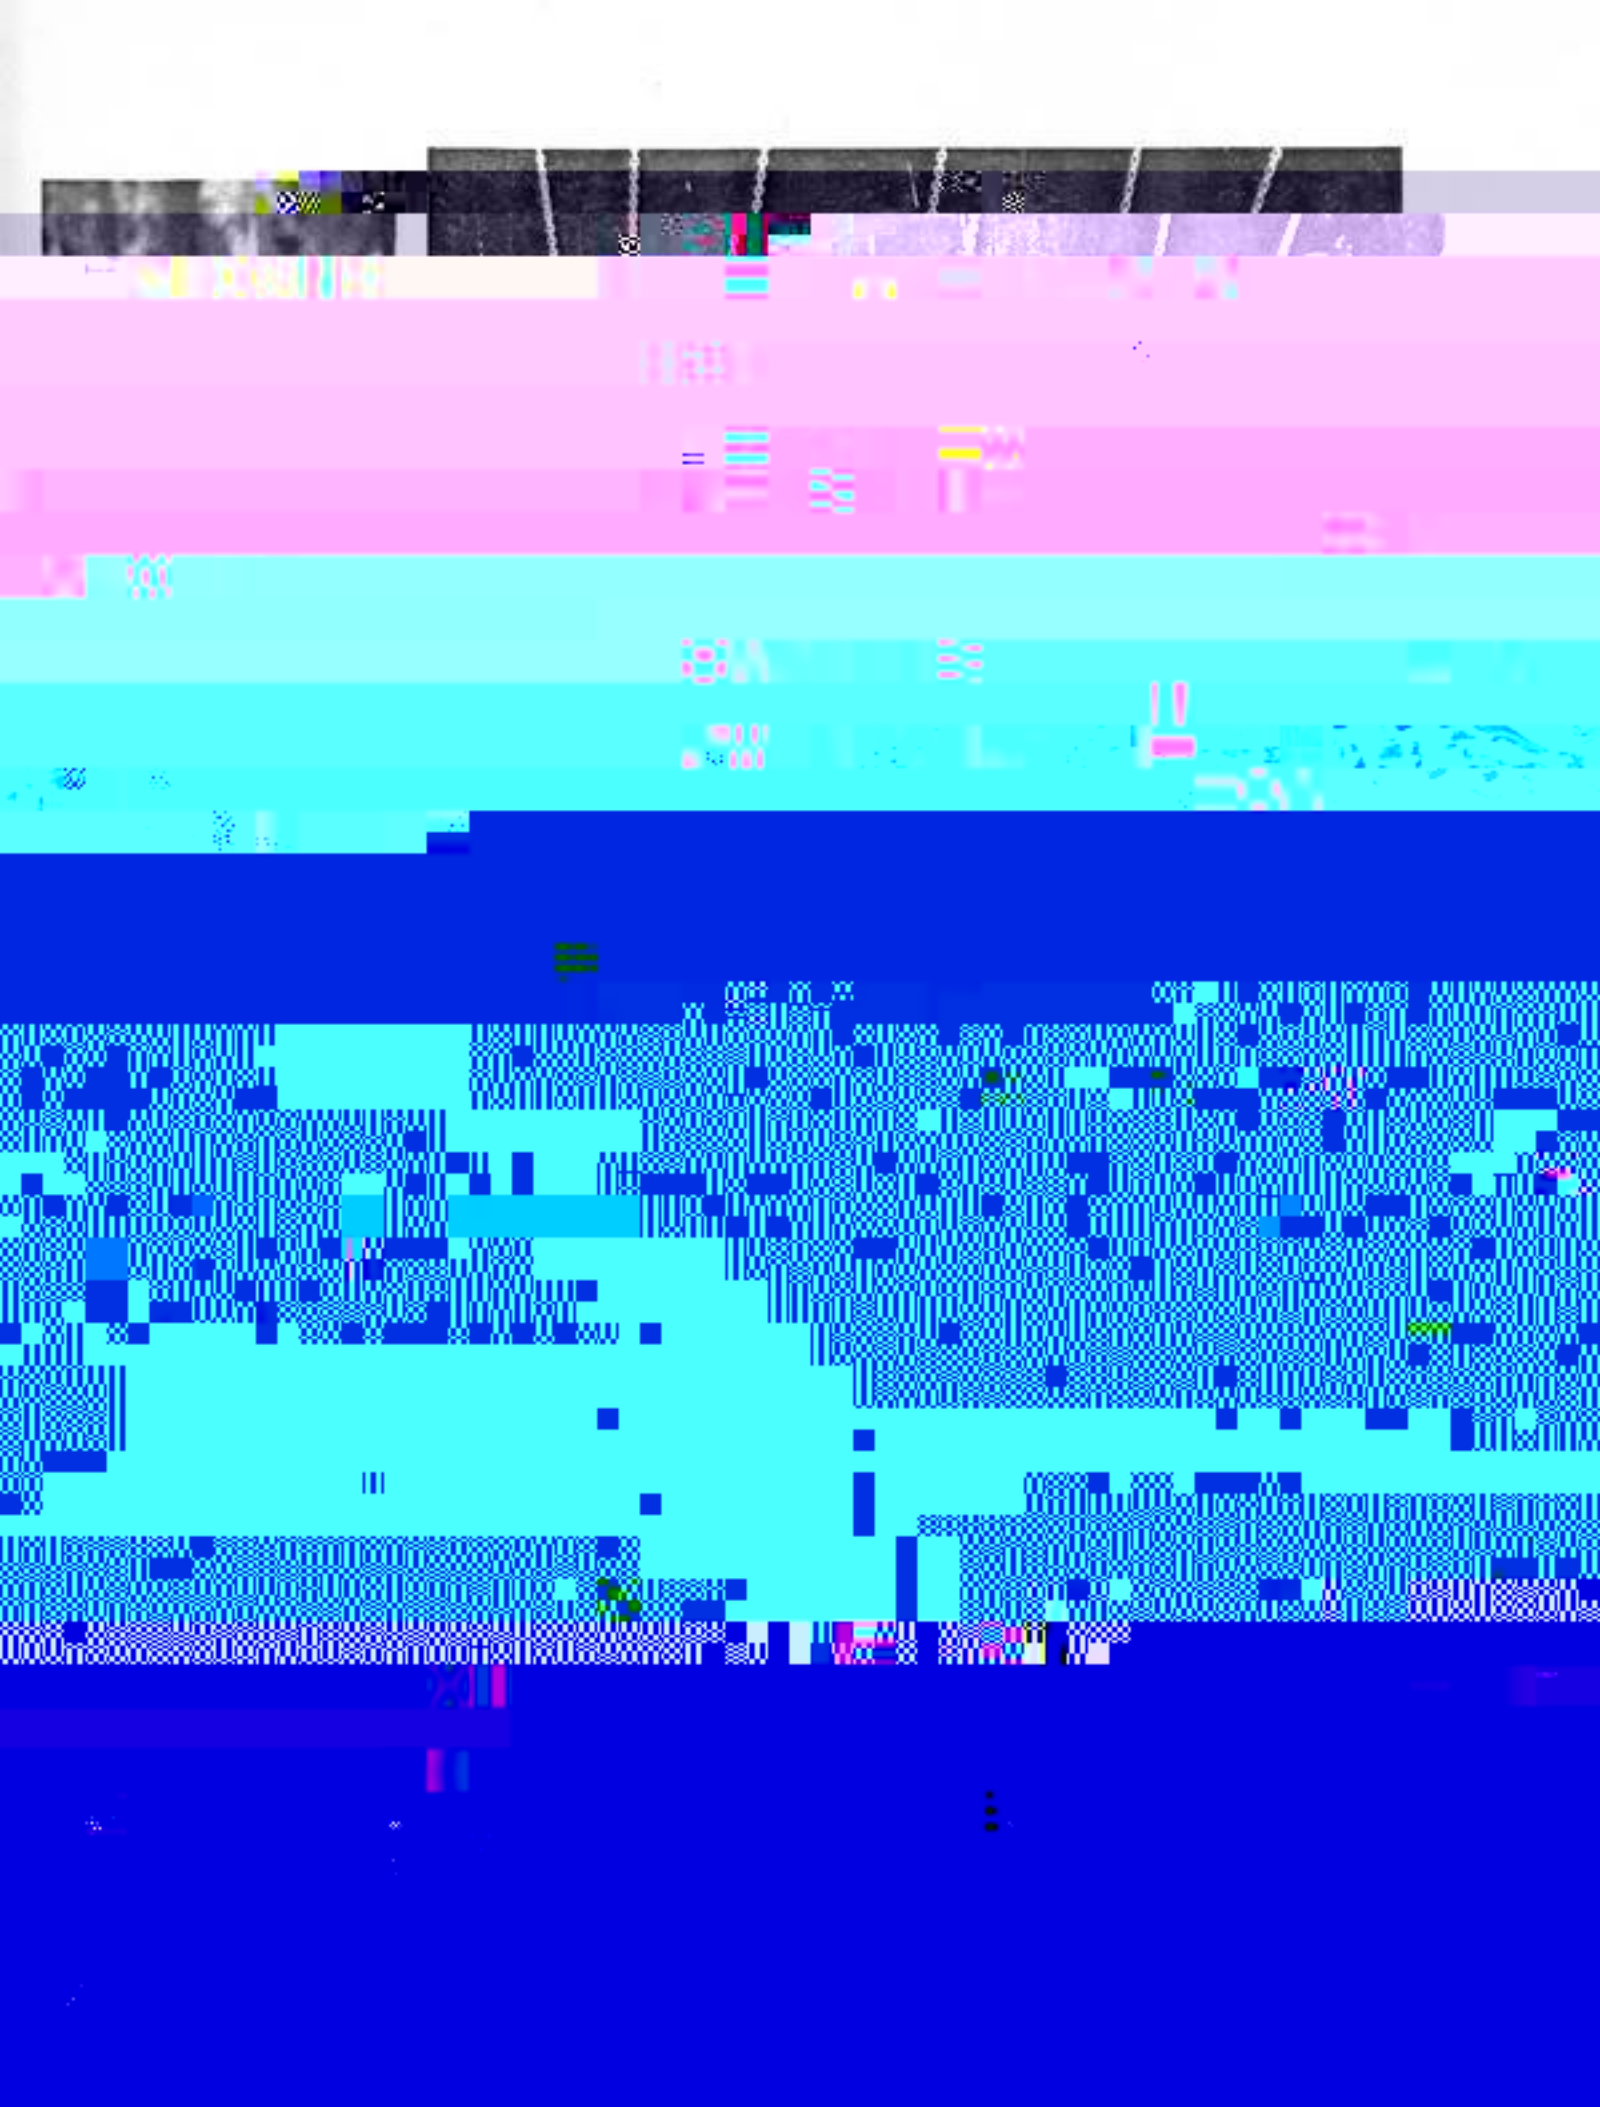

Engineering definitely rocked! It was fun 'cos we got to go on lo

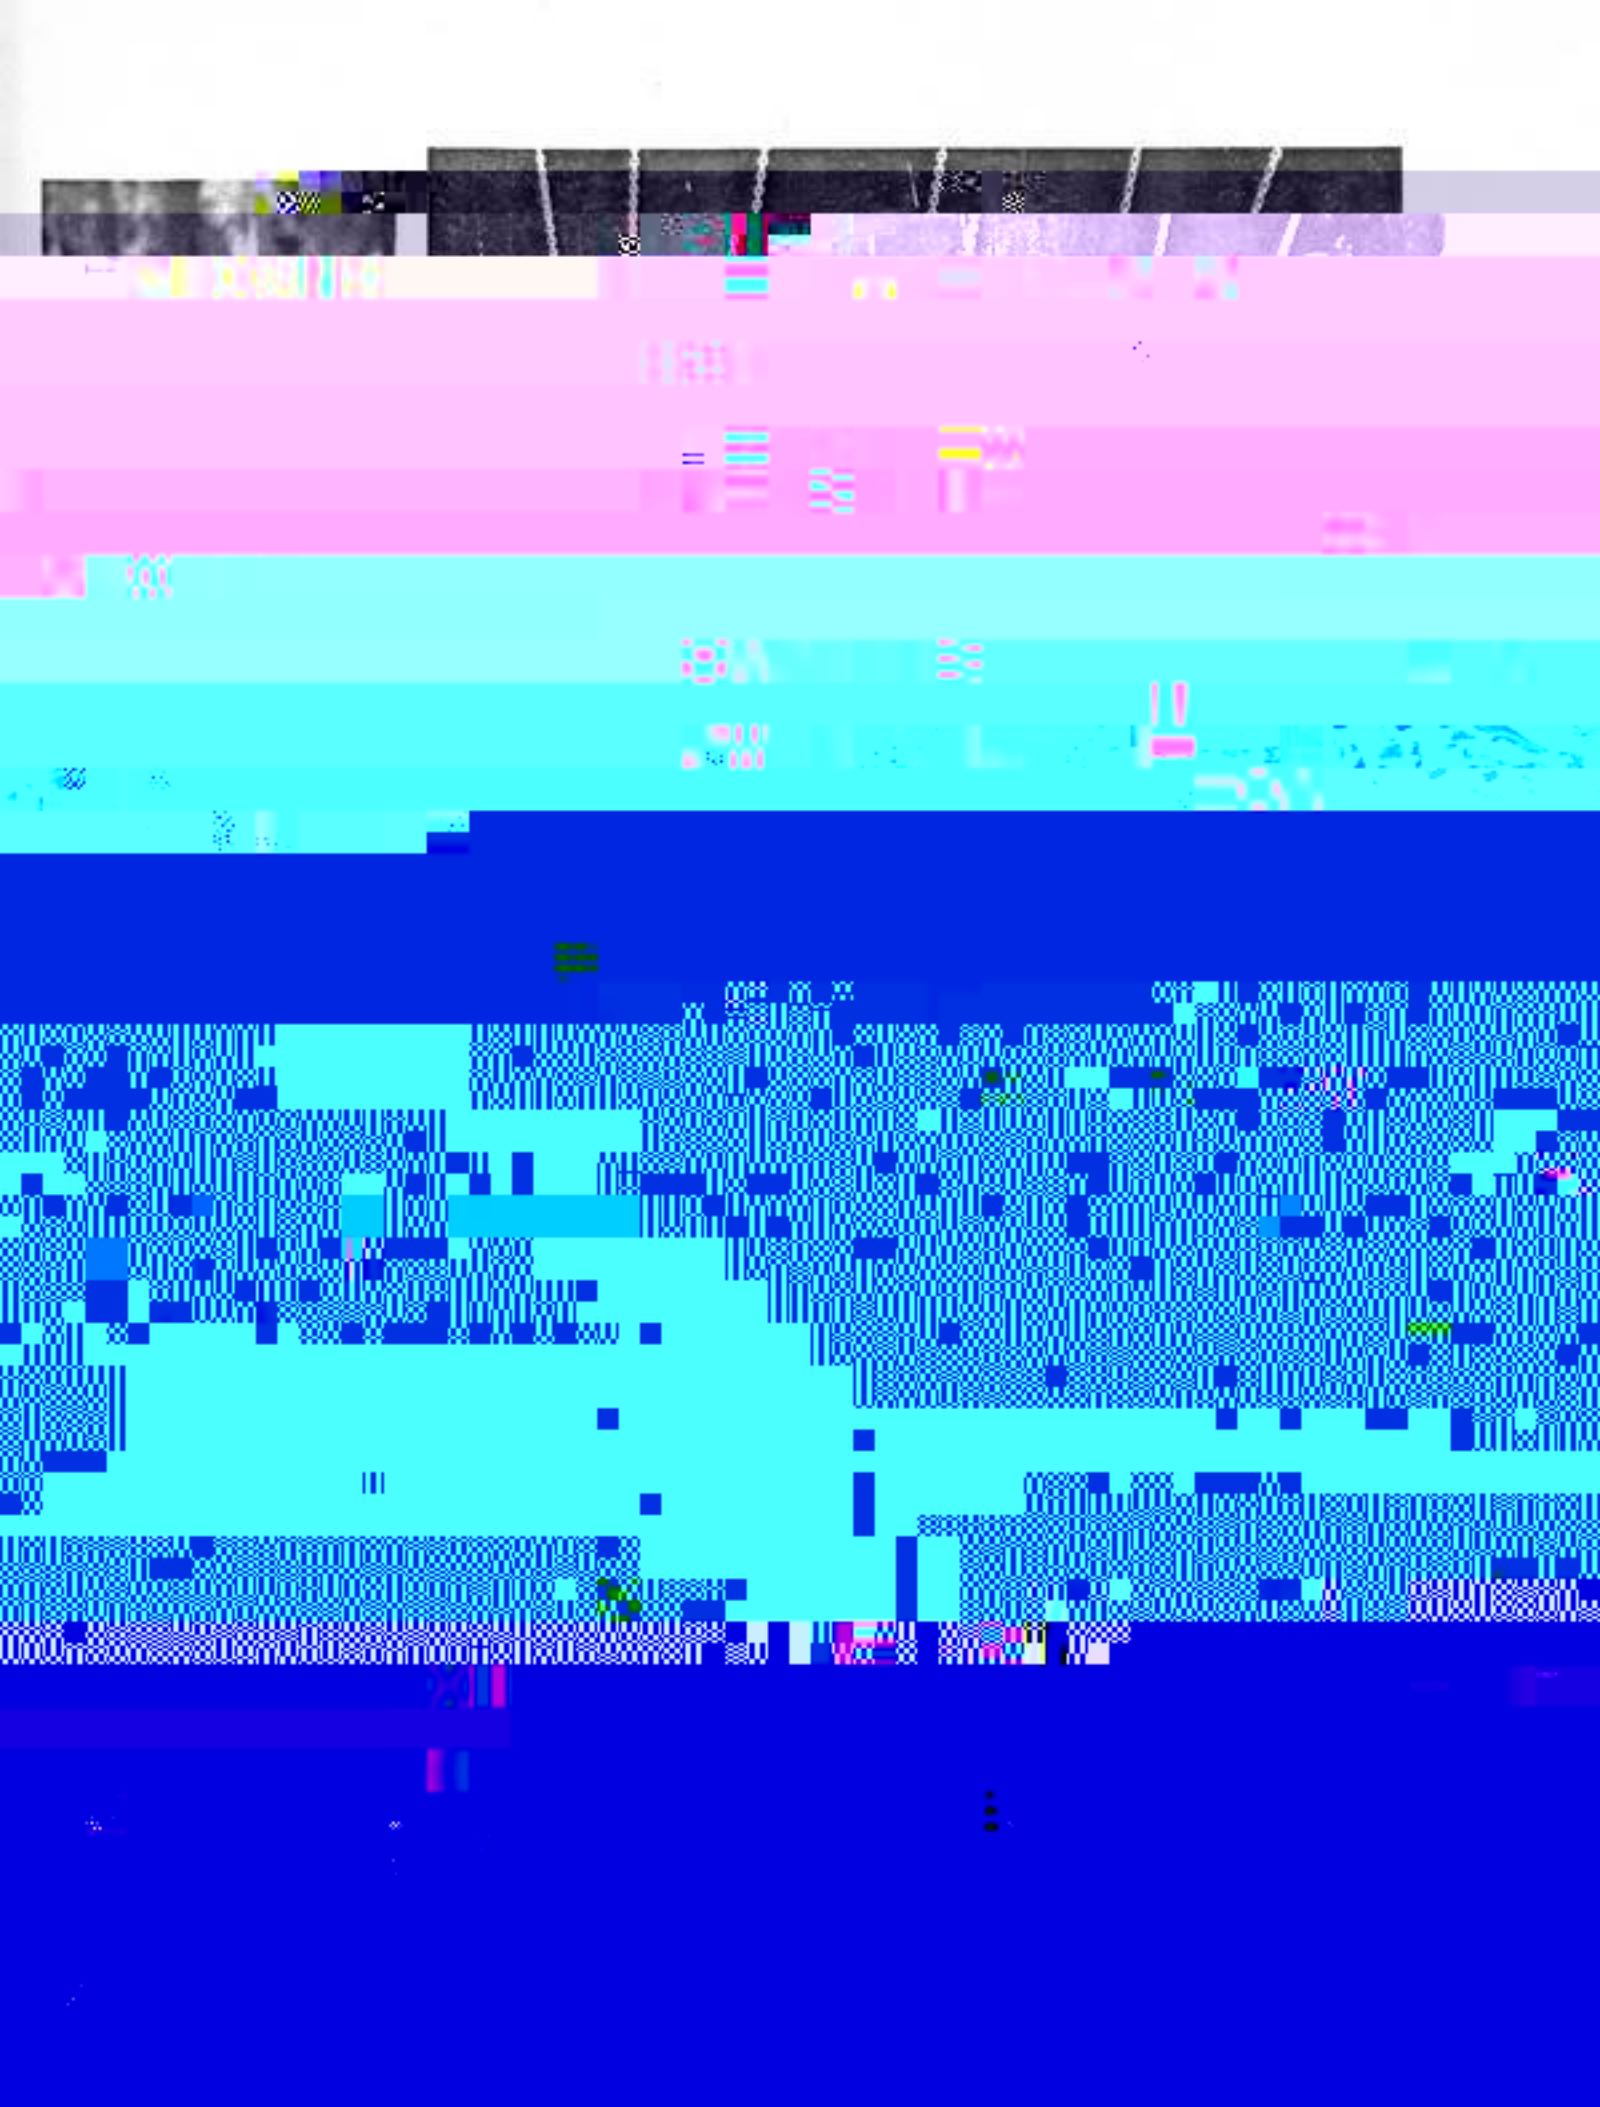

Swimming.....

Swimming for me was very worthwhile. I let go of my fear to get under water; I'm able to dive with
