Math 103

There are only five students in Math 103, and of course the instructor

Chuck, was a great
School Algebra teacher.
He covered fractions,
ponents, radicals,
rationals.

Chuck's class was equivalent to High School Algebra II. He learned many things, for example, exponents, polynomials, functions and graphing. He learned mathematical solutions to problems.

Something there is that

like a flower -
fragile -
for man

Eskimo Drums

The Drums Beat,
My Heart sings
A song of happiness
The Drums Beat,
My feet move,
bringing me
The Drums Beat,
And I am one
With the Spirits,
Dancing, Singing,
And the rhythm of our
Life.
Our Hearts Beat
And are the Drums.

Statues of my friends

At the heart of the storm,
Imaginings become real.
Memories shape into
Lovers.

The sand beneath grips at
My soul, while it burns below
I move on, each step scalding hot,
Feet scream in protest,

Statues
In the beach in front uncut
Stand waiting in pre-

my memories,
my love,
My Love

"For friends it's never 'good-bye,'
just 'see ya later.'"

All is dark, then a flash emerges
It hovers in the air, teasing me,
I follow, as if in

The light creates a fear inside me,
as well as a hellish illusion.
Skeletons running to an
my arrival.
