

Thank you!

Amanda, Baker Ben, Chad, Colin E., Colin F., Faustine, Faye, Genevieve, Glenn, Jeb, Jenna, Jorge, Justin, Pete, Randy, Seth, Skye, Stevie, and Travis were all mentioned by name as being particularly supportive and helpful.

“Toolik is a wonderful place to work, and it’s all thanks to the staff.”

Equipment, Data, and Support Services

"We're grateful for all efforts of Toolik Staff to make sure that equipment is not stored in animal housing areas of winter lab. This was much better this year than previous years with the new winter storage space in the garage."

"It's easy to work in all lab facilities."

Possibility to reserve space in other labs/elsewhere to store very large quantities of samples.

Persistent issues with DI water machine (mentioned in 2017 as well) – but efforts of staff to fix this appreciated.

Daily "snowed" / "did not snow" data from EDC.

Transportation

66% of respondents traveled to Toolik on a Science Truck or DHE vehicle.

80% of respondents used NSF trucks while in camp.

33% used UAF trucks.

7% used MBL trucks.

33% used boats

20% used snowmachines

New trucks

New reservation system

Wider boardwalks at high-traffic sites.

More boats (sometimes limited supply).

"DHE was extremely slow, 12 hours, stopped frequently to look for butterflies."

"Everything worked well, from the introduction event to departure from the station with the Toolik truck."

Camp life/General feedback

"I was really amazed with the quality of food and the sauna was so amazing!"

"Despite being active from dawn to dusk I still managed to gain weight during my three

No EMT on staff early August 2018 – severe skin infection potentially could have been avoided with prompt care.

Tan colored weatherports very hard to sleep in.

Several people mentioned supporting the creation of a scholarship fund for student userdays/travel.

Title IX

"

“Toolik is an amazing resource, and very dedicated to students. Thank you!”
