**V. REMARKS BY CHANCELLOR ROGERS**

*(Chancellor Rogers addressed council by phone immediately following the break)*

- Yesterday, the university received a letter from the Senate House and Finance Committees of the Legislature. The letter is concerning the budget and the legislature is asking the university to contribute to the state budget. In addition, they said at the state level because the funding picture is bleaker than when these negotiations took place and because of the massive unfunded liability in the retirement system and health care issues. Their bottom line is for little in terms of increased costs.
- This helps clarify what the budget picture will look like in the coming year, although the board has not made a final decision.
- We could be that we would have to absorb these measures. We will continue to work on ways to reduce our costs and economize. Please forward ideas regarding ways to save money.
