Quit For Life is a robust tobacco cessation service that provides personal quit coach and medications to aid in ending tobacco use.

When the pharmacy plan moved to Premera there were some changes to how specific medications were ranked that affected some pay amounts. UA has no control over the tier placement of individual medications. The overall goal is to drive generic use as much as possible.

Update on RFPs

There is an RFP for a consumer advocacy service (such as Patient Care, a vendor many heard about before) to provide assistance to individuals trying to choose a health provider for particular operations or other medical needs. They help reduce first dollar costs by assisting with price comparisons they also rate the health providers, so the entire recommendation is based on cost

Wellness Vendor

An intent to award went to Healthy Roads, but WIN for Alaska filed an injunction. Nothing is happening with either vendor until the legal process has taken its course.

Rates vs. Actuals review

Timothy and Erika explained the plan costs and recovery for the past year.

In FY12 there were high claims and an underrecovery. Part of the underrecovery included in the plan cost projections. The goal for FY13 was to recoup 80% of that under-recovery. In actuality it was completely recovered with some surplus. Rates for FY14 are slightly decreased as a result.
